

Trim and tape the pages together
refer to the picture for placement

This is a quick project to complete.
Cut a piece of muslin 22" X 18"
Following the fabric painting directions,
use your favorite brand of fabric paints.
Using a Micron Pigma Pen, draw stippling
designs to fill in the large heart. This
gives the heart a fabric appearance.
I also added tiny little dots around the
leaves. Using the end of your paint
brush dip into paint and add polka
dots to the inner heart between the
birds. Trace the words using the
Micron Pigma Pen. I used the pen only
and did not embroider the words, but
you can embroider them if you wish.
Quilt the background in any design
that appeals to you. Since this sampler
was made for my daughter and son-in-law
who were married during a snow storm, I
chose to quilt snow flakes in the background.

United in Marriage

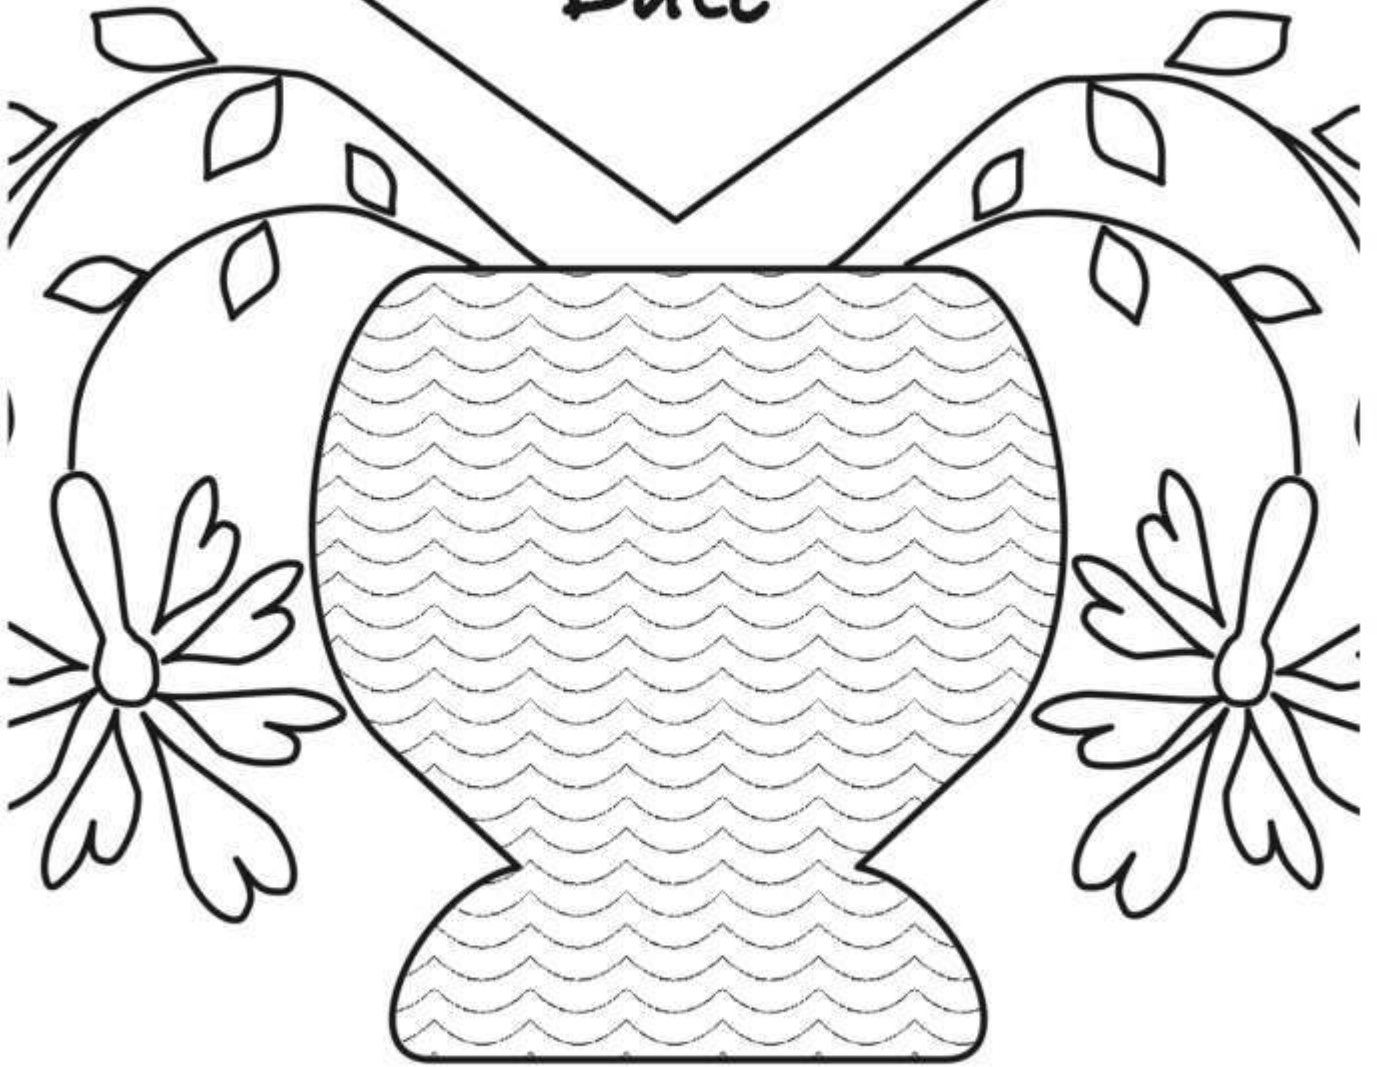

Heart: Name of Groom
and
Heart: Name of bride

I used metallic fabric paints for the leaves and vase.
